AUTHOR INDEX TO VOLUME 3

Altman, T., 453
Andersen, S. K., 385
Andreassen, S., 385
Antsaklis, P. J., 1

Bredeweg, B., 85
Bylander, T., 337

Causal reasoning, augmenting experience-based diagnosis with, 239
Causal reasoning to gait analysis, 337
Causal model acquisition system, toward a natural language-based, 191
Causal models as intelligent learning environments for science and engineering education, 167
Causal models, creating and using, 143
Chandrasekaran, B., 275
Characterizing knowledge depth in intelligent safety systems, 129
Combining opinions from several experts, 439
Common structural level for software, database, and knowledge-based systems, 405
Cook, D. F., 69

David, J-M., 239
Dorffner, G., 45
Doyle, R. J., 143

Falck, B., 385
Finin, T., 129
Frederiksen, J. R., 167
Function-fault model, diagnosis with a, 213

Gunasena, U., 463

Hirsch, D. E., 337
Horn, W., *iii*, 305

Improving the efficiency of model-based reasoning system, 357
Integrating classification-based compiled level reasoning with function-based deep level reasoning, 275
Interval-based envisioning in hiqual, 101
Introducing meta-levels to qualitative reasoning, 85

Jensen, F., 385

Kjaerulff, U., 385
Klein, D., 129
Knowledge-based system for course scheduling, 463
Koton, P. A., 357
Krivine, J-P., 239
Kumara, S. R. T., 463

Legal issues of expert system use, 69
Li, H., 427
Ling, X., 439
Linster, M., 101
Long, W., 367

Medical diagnosis using probabilistic causal network, 367
Mesicar: medical expert system integrating causal and associative reasoning, 305
Motschnig-Pitrik, R., 405
Munin network for median nerve: a case study on loops, 385

Nessen, E., 33

Oksana, S., 249
Olesen, K. G., 385

Passino, K. M., 1
Patel, R. S., 249

Replacing symbolic rule systems with PDP networks, 45
Rudd, W. G., 439

SC-UM: user modeling in sinix consultant, 33
Selfridge, M., 191
Simon, S. R., 337
Solving the jigsaw puzzle problem in linear time, 453
Soyster, A. L., 463
Sonnenberg, F. A., 249
Steels, L., 213
Stricklen, J., 275
System and control theoretic perspective on artificial intelligence planning systems, I
Systematic knowledge base design for medical diagnosis, 249
Szolovits, P., 337

Two-stage strategy for motion parameter-estimation in dynamic images, 427

Voss, H., 101

Weintraub, M. A., 337
White, B. Y., 167
Whittaker, A. D., 69
